People have realized that smaller weddings are in. You do not need to call 5,000, 6,000, and 7,000 people. People have become more conscious due to the pandemic.

I think the wedding industry is booming and we are lucky to be part of it. Now, everyone wants a destination wedding. One of the key trends is people search for an offbeat location, experiment with concepts, or travel abroad. They look for new ways instead of performing a traditional Indian wedding.

Minnat Lalpuria

I have noticed a shift; 600-1,000 people weddings are back in the market. There is a huge demand when it comes to destination weddings. Of late, they are very popular.
